

**G-FSS-906 VENDOR MANAGED INVENTORY (VMI) PROGRAM
(MAS) (JAN 1999)**

(a) The term “Vendor Managed Inventory” describes a system in which the Contractor monitors and maintains specified inventory levels for selected items at designated stocking points. VMI enables the Contractor to plan production and shipping more efficiently. Stocking points benefit from reduced inventory but steady stock levels.

(b) Contractors that commercially provide a VMI-type system may enter into similar partnerships with customers under a Blanket Purchase Agreement.
