(3) Section III Price Proposal:

(i) Offeror must address additional pricing requirements as described below: The Offeror has the option to propose separate rates for "domestic" versus "overseas" and/or "customer facility" versus "contractor facility" if there are variations in costs that depend on where the work is performed. Rates proposed in this manner must be clearly labeled as such.

(A) For each proposed labor category, the Offeror must provide a detailed position description. Position descriptions must include functional responsibilities, minimum years of experience, minimum educational/degree requirements, and any applicable training or certification requirements. If it is the Offeror's standard commercial practice to substitute experience for education, explain the methodology in use (e.g., five years' experience equates to a BA/BS degree).

(B) For each proposed training course, the Offeror must provide a detailed training course description which includes the following information:

1. Title and brief description of the course, including major course objectives
2. Length of course (number of hours/days)
3. Minimum/Maximum number of participants
4. Price for additional students above minimum (if applicable)
5. Support materials provided as part of the course (e.g., training manuals, CDs, DVDs)

(C) Fixed Price Services: Provide a description for each fixed price service offered that clearly demonstrates how each service is within scope of the applicable SIN(s). Descriptions should contain sufficient detail to ensure ordering agencies have enough information to know what they're buying.

(D) Proposed Products/Other Direct Costs (ODCs): Provide a description for each proposed support product and/or Other Direct Costs (ODCs) that clearly describes what the ordering agencies are buying.

(E) Once the contract is awarded, all approved descriptions will become part of the Authorized Federal Supply Schedule Price List. It is the responsibility of the offeror to post the approved descriptions to GSA Advantage!®.

(F) Proposed prices must represent fully-burdened rates inclusive of all cost factors (e.g., direct labor, indirect labor, G&A, profit, and IFF).

(ii) The Offeror must submit a Professional Compensation Plan in accordance with clause 52.222-46 Evaluation of Compensation for Professional Employees. Individual compensation disclosure is not required. Submission of the general compensation practices printed in the Offeror's employee handbook is generally sufficient if the handbook sets forth salary ranges and fringe benefits proposed for the professional employees who will work under the contract.

(iii) In accordance with clause 52.237-10 Identification of Uncompensated Overtime, the Offeror must submit a copy of its policy addressing uncompensated overtime, as defined in 52.237-10 paragraph (a).

(iv) Service Contract Labor Standards, formerly known as the Service Contract Act: Applicable to this solicitation (Service Contract Act 52.222-41, and related clauses 52.222-17, 52.222-42, 52.222-43, 52.222-49 and 52.222-55)

(A) The Service Contract Labor Standards (SCLS), formerly known as the Service Contract Act (SCA) applies to some nonprofessional services to be provided under this Schedule excluding pricing offered for services outside of the United States. The SCLS index of applicable wage determinations for this solicitation and resultant contract are shown in FedBizOpps document, "SCA Wage Determinations." The full-text version of each wage determination can be viewed at www.wdol.gov. Some of the proposed labor categories may be subject to the SCLS (usually nonprofessional categories and fixed-price services). As such, the Offeror should verify that its proposed base rates and fringe benefit rates for these labor categories meet or exceed the SCLS wage determination rates and fringe benefits for the areas included in the geographic scope of the contract (i.e., nationwide); the Offeror will be required to comply with applicable SCLS wage determination rates and fringe benefits regardless of the price proposed and awarded on any resultant Schedule contract. The Offeror may be required to submit supporting documentation for the proposed rates that will allow the contracting officer to conduct cost analysis to determine that offered prices are fair and reasonable.

(B) Schedule contractors must comply with the base rate and fringe benefit rate requirements of the prevailing rate SCLS Wage Determination (WD) Revision Number currently incorporated into the GSA Schedule contract. No prevailing rate WD may be incorporated into a task order as the order may then be in conflict with the Schedule contract terms and conditions. However, WDs based on collective bargaining agreements (CBAs) may be incorporated into a task order if the task order is found to be a successor contract as used in FAR Subpart 22.10; a CBA WD would be applicable only to the task order it is incorporated into and no other orders under that Schedule contract.

(C) In the price proposal template, indicate which proposed labor categories are subject to the SCLS by placing a double asterisk (**) next to the labor category name or fixed price service.

(D) The following paragraph is meant to be instructive and NOT to be copied as part of proposed Schedule pricing:

For all the Offeror's identified SCLS-eligible labor categories, map them to the SCLS-equivalent labor category title (titles/descriptions available at <http://www.wdol.gov> - click on the "library" link, then download the SCA Directory of Occupations, 5th Edition). Also identify the WD# that the labor categories in your offer are predicated on. Note that the applicable revision number for any Wage Determination number is the revision number identified in the solicitation index of wage determinations.

(E) Escalation of SCLS-covered services shall be in accordance with FAR

clause [52.222-43](#) and either clause I-FSS-969 or clause 552.216-70, as applicable to the contract.

Regardless of the method used, the contractor must ensure that within 30 calendar days after the effective date of any contract modification to revise pricing based on changes in the applicable wage determination(s), the contractor's electronic catalog is updated on GSA Advantage!®.

Note 1: The contractor will not automatically be allowed an increase in prices based solely on new wage determinations. Contractor may be required to furnish the Schedule Contracting Officer with additional justification for a price increase. Additional justification may include, but is not limited to, invoices, payroll information, current e98s, RFQ, and/or task order information.

Note 2: Reference Code of Federal Regulations, Title 29, Labor, Subtitle A Office of the Secretary of Labor, Part 4 Labor Standards for Federal Service Contracts, Subpart D Compensation Standards, paragraph 4.161 Minimum monetary wages under contracts exceeding \$2,500, which states: "No change in the obligation of the contractor or subcontractor with respect to minimum wages will result from the mere fact that higher or lower wage rates may be determined to be prevailing for such employees in the locality after the award and before completion of the contract."

(F) For each SCLS eligible contract labor category, complete the following information in the below spreadsheet format directly in eOffer (labor categories shown are for example purposes):

SCA Matrix		
SCA Eligible Contract Labor Category	SCA Equivalent Code Title	WD Number
Secretary	01115 General Clerk I	052059
Driver	31361 Truck driver, Light Truck	052059
Engineering Technician	29081 Engineering Technician I	052059
Administrative Assistant	01011 Accounting Clerk I	052059

(G) Once the contract is awarded, the SCLS/SCA matrix and the following language will become part of the Authorized Federal Supply Schedule Price List. It is the responsibility of the offeror to post both the matrix and the language to GSA Advantage!®.

"The Service Contract Labor Standards, formerly the Service Contract Act (SCA), apply to this contract and it includes SCLS applicable labor categories. Labor categories and fixed price services marked with a (**) in this pricelist are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS/SCA matrix. The prices awarded are in line with the geographic scope of the contract (i.e., nationwide)."
