COVER PAGE

SECTION 508 CONFORMANCE. Section 508 is a part of the Rehabilitation Act of 1973 which requires that Electronic and Information Technology (EIT) that is "developed, procured, maintained, or used" by the Federal government be accessible to persons with disabilities. On August 7, 1998, the President signed into law the Workforce Investment Act of 1998, which includes the Rehabilitation Act Amendments of 1998. Section 508 was originally added to the Rehabilitation Act in 1986; the 1998 amendments significantly expand and strengthen the technology accessibility requirements in Section 508.
Section 508 requires that when Federal agencies "develop, procure, maintain, or use" electronic and information technology, they shall ensure that the electronic and information technology allows Federal employees with disabilities to have access to and use of information and data that is comparable to the access to and use of information and data by Federal employees who are not individuals with disabilities, unless an undue burden would be imposed on the agency. Section 508 also requires that individuals with disabilities, who are members of the public seeking information or services from a Federal agency, have access to and use of information and data that is comparable to that provided to the public who are not individuals with disabilities, unless an undue burden would be imposed on the agency.

SCP-FSS-001-N INSTRUCTIONS APPLICABLE TO NEW OFFERORS (APR 2019)

(a) Read the entire solicitation document prior to preparation of your offer.

(b) Electronic submission of offers via GSA's eOffer web-based application (http://eOffer.gsa.gov) is mandatory.

(c) Offers must be current, concise, and complete, and demonstrate a thorough understanding of solicitation requirements. By submission of an offer, the offeror attests that there have been no exceptions taken to the terms and conditions of this solicitation unless otherwise explicitly identified as required in eOffer (see "Exceptions to Terms and Conditions" under the Standard Response module).

(d) If the offeror was previously awarded a Schedule contract that was cancelled or allowed to expire due to low or no sales, a new offer for the same Schedule will not be considered unless a minimum of 12 months have passed since the effective date of the cancellation or the expiration date of the previous contract. Any offer submitted prior to the completion of this 12-month period will be rejected.

(e) By submission of an offer, the offeror attests that it understands and agrees to comply with the requirements of clause 552.238-74 *Industrial Funding Fee and Sales Reporting*.

(f) In addition to full compliance with the requirements of this provision (SCP-FSS-001-N), the offeror must also comply with the following provisions, as applicable. Failure to comply with an applicable provision will result in rejection of the offer.

Solicitation provisions and their applicability are detailed below:

(1) SCP-FSS-002 *Specific Proposal Submission Instructions for Services* – Applies to all offers that propose services, with the exception of offers under Schedule 70 and 00CORP.

Offers submitted under Schedule 70 are required to comply with SCP-FSS-004 only, regardless of whether products and/or services are offered. Offers submitted under Schedule 00CORP are required to comply with SCP-FSS-008 and SCP-FSS-003.

(g) The following documents must be submitted by all offerors and are detailed in paragraph (j). See

(3) Small Business Subcontracting Plan (if applicable),

(h) Withdrawal of Offer: The offeror may withdraw its offer from consideration at any time prior to award or rejection by withdrawing it in eOffer. If an offer is withdrawn, a new offer can be resubmitted at a later date. Information saved from the previous withdrawn offer can be copied over to the new offer, excluding uploaded documents.

(i) The proposal instructions in SCP-FSS-001-N are common to all solicitations. Some Schedules and SINs have additional requirements specific to that particular Schedule or SIN. Please review the solicitation attachments “Read Me First” and/or “Critical Information” for specific Schedule or SIN requirements.

(j) All offerors must comply with the following:

(1) **Section I – Administrative/Contract Data**

i. A designated Authorized Negotiator who is also a company officer (i.e., President, CEO, CFO, etc.) must complete (or have completed within one year of the date of offer submission) the *Pathway to Success* training. This free, web-based self-assessment is available through the Vendor Education Center (VEC), which can be accessed directly at https://gsafas.secure.force.com/MASTrainingHome or through the Vendor Support Center (http://vsc.gsa.gov) by selecting the “Education” tab and then “Pathway to Success.” The training session is less than two hours total and covers the major factors vendors should consider prior to submitting an offer to GSA. eOffer will verify the name of the person that completed the *Pathway to Success* training and the date of completion.

ii. The offeror must complete and submit the *Readiness Assessment for Prospective Offerors*. This free, web-based self-assessment is available through the Vendor Education Center (VEC), which can be accessed directly at https://gsafas.secure.force.com/MASTrainingHome or through the Vendor Support Center (http://vsc.gsa.gov) by selecting the “Education” tab and then “Vendor Toolbox (Readiness Assessment).” The Readiness Assessment must be completed by a company officer (i.e., President, CEO, CFO, etc.) and completed/dated within the past one-year period. This tool is designed to assist vendors in determining whether they are ready to pursue a Schedule contract and prepares them to navigate the Schedule proposal process.

iii. The offeror must be registered with the System for Award Management (SAM) at http://www.sam.gov. The information provided must be current, accurate, and complete, and reflect the North American Industrial Classification System (NAICS) code(s) for this solicitation and the SINs proposed. SAM consolidates the information previously contained in the Central Contractor Registration (CCR), Excluded Parties List System (EPLS), and Online Representations and Certifications Application (ORCA) databases.

iv. The offeror must provide the following, as applicable:

(A) A copy of any cancellation letters received within the preceding two-year period for previously awarded Schedule contracts,

(B) A copy of any rejection notices received within the preceding two-year period for previously submitted Schedule offers,

(C) If a contract was previously awarded under THIS Schedule, and it was subsequently cancelled or allowed to expire due to low sales, a detailed description of the steps the offeror plans to take to generate sales through a new contract that includes the following:

1) A copy of the cancellation letter or notification of determination not to exercise an option,

2) Current Federal sales in excess of $25,000, as evidenced by copies of contractual documents that identify the Federal entity and the date and value of the product or services provided,

3) Demonstration that there is a reasonable expectation that any future award will comply with clause I-FSS-639 *Contract Sales Criteria*,

4) A marketing plan detailing the steps you plan to take to generate sales through a new GSA Schedule contract.

(D) Information regarding any pending offers under other Schedules, to include the name and phone number of the assigned GSA contract specialist,

(E) Information regarding any currently awarded GSA Schedule contracts, to include the awarded contract number and price list.

v. The offeror must provide financial statements for the previous two-year period (audited, if available). At a minimum, each financial statement must consist of a balance sheet and income statement. GSA will use this information to determine financial responsibility. Provide an explanation for any negative financial information disclosed, including negative equity or income. Offerors may be required to provide letters of credit or other documentation to demonstrate that adequate financial resources are available. In accordance with Federal Acquisition Regulation (FAR) 9.103(a), contracts will only be awarded to responsible prospective contractors. To be determined responsible, an offeror must have adequate financial resources to perform the contract or the ability to obtain them. Note that 1.) submission of a GSA Form 527 does not meet the aforementioned requirements, and 2.) offerors are NOT to submit tax returns.

vi. The offeror must prepare and submit a Small Business Subcontracting Plan, if applicable. The offeror is to complete the Small Business Subcontracting Plan module in eOffer if, pursuant to the applicable NAICS codes and size standards, the offeror is determined to be other than a small business concern for purposes of this solicitation. Large businesses, nonprofit organizations, and educational institutions are advised of the requirement to submit a Small Business Subcontracting Plan as detailed in clause 552.219-72 *Preparation, Submission, and Negotiation of Subcontracting Plans*, incorporated by reference. The Government will review each plan to ensure it is consistent with the provisions of this clause. Subcontracting plans are subject to negotiation, along with the terms and conditions of any contract resulting from this solicitation. The offeror's subcontracting plan must be approved by the contracting officer

prior to award. Failure to submit a Small Business Subcontracting Plan when required will result in the rejection of your offer.

Note: GSA's subcontracting goals can be found at the following website: https://www.sba.gov/contracting/contracting-officials/goaling.

vii. Unless otherwise requested, the offeror shall not submit brochures, newsletters, or other marketing materials.

viii. An Agent Authorization Letter must be completed and submitted as part of the offer if a consultant or third-party agent assisted in the preparation of the offer, will be involved in any part of the negotiation of the offer, or will be involved in any post-award actions. The template for the Agent Authorization Letter can be found as an attachment to the solicitation. The Agent Authorization Letter has both pre- and post-award delegations. For any resultant contract, the contractor is responsible for initiating a modification to ensure all authorized negotiators and delegations are up-to-date (e.g., removing an authorized negotiator that only has pre-award delegations).

(2) **Section II – Technical Proposal**

The offeror must address the three technical proposal factors below.

i. Factor One - Corporate Experience: The offeror must submit a narrative description of its corporate experience. This narrative cannot exceed two pages and must address the following:

(A) The number of years of corporate experience in providing the products/services described under this Schedule, regardless of the specific products/services being proposed – a minimum of two (2) years of corporate experience is required,

(B) Organization's number of employees, experience in the field, and resources available to enable it to fulfill requirements,

(C) Brief history of the offeror's activities contributing to the development of expertise and capabilities related to this requirement,

(D) Information that demonstrates the offeror's organizational and accounting controls,

(E) A description of the resources presently in-house or the ability to acquire the type and kinds of personnel/products proposed,

(F) A description of how the offeror intends to market the proposed products/services to Federal clients,

(G) A discussion regarding the intended use of subcontractors.

ii. Factor Two - Past Performance: The offeror must order and obtain a Past Performance Evaluation from Open Ratings, Inc. (ORI). Offerors are responsible for payment to ORI for the Past Performance Evaluation.

(A) Past Performance Evaluations are valid for a period of one year from the date of issuance by ORI. If the evaluation was issued more than one year prior to the date of proposal submission via eOffer, the proposal will be rejected.

(B) The order form must be completed with a minimum of six (6) customer references submitted. A "customer reference" is defined as a person or company that has purchased relevant products/services from the offeror. The offeror is advised to use references from projects involving products/services related to this solicitation and/or those performed under NAICS code(s) applicable to

proposed products/services.

(C) The offeror must submit one (1) copy of the completed Past Performance Evaluation and one (1) copy of the order form with its proposal. Failure to submit the completed evaluation and order form will result in rejection of the proposal.

(D) The offeror must address any negative feedback for each of the feedback categories contained in the ORI report, to include actions taken to minimize the problems that resulted in negative feedback.

iii. Factor Three - Quality Control: The offeror is to submit a single narrative for this factor, regardless of the number of products/services offered. This narrative cannot exceed two (2) pages and must address the following:

(A) A description of internal review procedures that facilitate high-quality standards,

(B) Identification of individuals responsible for ensuring quality control,

(C) Whether or not subcontractors are used and, if so, the quality control measures used to ensure acceptable subcontractor performance,

(D) How potential problem areas and solutions are handled,

(E) The procedures for ensuring quality performance when meeting urgent requirements,

(F) How quality control will be managed when completing multiple projects for multiple agencies simultaneously.

(3) **Section III – Price Proposal**

i. GSA's pricing goal is to obtain equal to or better than the offeror’s Most Favored Customer (MFC) pricing under the same or similar terms and conditions. GSA seeks to obtain the offeror's best price based on its evaluation of discounts, terms, conditions, and concessions offered to commercial customers. However, offers that propose Most Favored Customer pricing but are not highly competitive will not be determined fair and reasonable and will not be accepted. The U.S. Government Accountability Office has specifically recommended that "the price analysis GSA does to establish the Government's MAS negotiation objective should start with the best discount given to any of the vendor's customers."

ii. Submit proposed pricing using the attached Price Proposal Template. The Price Proposal Template MUST be submitted in Microsoft Office Excel format. The proposed pricing structure must be consistent with the offeror’s commercial practices. Pricing must be clearly identified as based either on a "Commercial Price List" or a "Commercial Market Price," as defined in FAR 2.101 (see "Catalog Price" and "Market Prices" under the definition of "Commercial Item").

(A) If the MFC is a Federal agency, but sales exist to commercial customers, identify which, if any, of the commercial customers receive the offeror’s best price. This will allow the Government to establish a "basis of award" customer in accordance with paragraph (a) of clause 552.238-75 *Price Reductions*.

(B) Proposed prices must include the 0.75% Industrial Funding Fee (IFF) (see contract clause 552.238-74 *Industrial Funding Fee and Sales Reporting*). This fee will be included in the awarded prices and reflected in the total amount charged to ordering activities.

iii. Provide supporting documentation for EACH proposed product/service price.

Supporting pricing documentation may consist of published and publicly-available commercial catalogs/price lists, copies of invoices, contracts, quote sheets, etc., and must be submitted with the offer. There must be a clear and relevant relationship between the supporting document and the proposed price it is meant to substantiate. Each supporting document must be clearly labeled with the name of the corresponding proposed product/service.

iv. The offeror must submit a detailed price narrative containing sufficient information for each of the products/services offered to enable the contracting officer to determine that offered prices are fair and reasonable. For example, if a price offered to GSA is not equal to or better than the price offered to the offeror's designated Most Favored Customer, the narrative must explain the rationale for proposing such a price in a manner sufficient to enable the contracting officer to determine that the rate is fair and reasonable. Any deviation from the offeror's commercial sales practices must be explained, including the specific circumstances and frequency of the deviations.

The offeror must also propose a mechanism for future price adjustments, as detailed below:

(A) If pricing proposed in the Price Proposal Template is based on a commercial price list, submit a copy of the company's current, dated price list, catalog, or standard rate sheet (note that this must be an existing, standalone document, and not prepared for purposes of this solicitation). Future price adjustments for pricing based on a commercial price list are subject to clause 552.216-70 *Economic Price Adjustment – Multiple Award Schedule Contracts.*

OR

(B) If pricing proposed in the Price Proposal Template is based on commercial market prices, future price adjustments are subject to clause I-FSS-969 *Economic Price Adjustment – FSS Multiple Award Schedule.* The offeror must either propose a fixed annual escalation rate or identify a relevant market indicator (e.g., the Bureau of Labor Statistics Employment Cost Index).

v. Travel will be handled in accordance with clause C-FSS-370 *Contractor Tasks/Special Requirements*. Costs for transportation, lodging, meals and incidental expenses are allowable subject to the limitations contained in the Federal Travel Regulations and/or Joint Travel Regulations. These costs should not be included in proposed prices, as they are to be coordinated at the order level.

vi. Complete the Commercial Sales Practices Format (CSP-1) in eOffer in accordance with instructions provided. Provide a rationale for the given estimate of GSA contract annual sales.

(k) Raising the Bar

In an effort to raise standards under the FSS program, the following requirements have been highlighted in all solicitations and are relevant to this Schedule, as applicable:

(1) **AbilityOne Program Products**

The AbilityOne Program is a Federal procurement program that generates jobs for individuals who are blind or have another significant disability. In order to distribute AbilityOne products, a vendor must be an authorized AbilityOne Program distributor as designated by the U.S. AbilityOne Commission.

Certain commercial products are considered “essentially the same” (ETS) as AbilityOne products. Because AbilityOne products are mandatory purchases for Federal customers, an offeror that is not an authorized AbilityOne distributor is required to remove any ETS items from its FSS proposal. Offerors can search for products on the procurement list at https://www.abilityone.gov/procurement_list/.

For more information on the AbilityOne Program, ETS products, and becoming an authorized AbilityOne distributor, please visit www.abilityone.gov/, or contact Mr. Mike Jurkowski at mjurkowski@abilityone.gov/ 703-603-2117.

(2) **Manufacturer Part Number and Universal Product Code Data**

Manufacturer Part Number (MPN) data must be submitted for all products. The offeror must ensure that the MPN for each proposed product reflects the actual number assigned. Universal Product Code Type A (UPC-A) data must also be submitted for all products for which this information is commercially available. If MPN (and UPC-A data, if commercially available) is submitted incorrectly or not submitted, the associated product may not be awarded.

(3) **GSA Advantage Purchase Order (PO) Portal**

The offeror must use EDI, cXML or the GSA Advantage Purchase Order (PO) Portal to provide order acknowledgment information that enables ordering agencies to track the location of an order at any time, from the moment the order is shipped, to the point of delivery and acceptance.

The GSA Advantage Purchase Order (PO) Portal, which is accessible at https://www.poportal.gsa.gov/poportal/welcome.do gives GSA schedule contractors quick and easy access to purchase orders placed by federal agencies using GSA Advantage or eBuy. The PO Portal allows contractors to view, print and/or download orders and to send order acknowledgment/status directly to ordering agencies.

For more information on the PO portal review the PO Portal helpguide at: https://www.gsaadvantage.gov/images/products/elib/pdf_files/pohp.pdf.

(4) **Frustrated Freight** (applicable only to overseas delivery)

The offeror must demonstrate understanding of orders bound for an international end-point delivery by providing a sample electronic version of a label appropriately marked in accordance with the FED-STD-123 and MIL-STD-129 edition in effect as of the date of solicitation issuance. An offer for OCONUS delivery will not be accepted if the offer does not demonstrate a proper tracking system and provide a sample packaging label for international delivery.

(5) **Section 508 Standards**

Section 508 of the Rehabilitation Act, as amended by the Workforce Investment Act of 1998 (P.L. 105-220) requires that when Federal agencies develop, procure, maintain, or use information and communication technology (ICT), it shall be accessible to people with disabilities. Federal employees and members of the public who have disabilities must have access to, and use of, information and data that is comparable to people without disabilities.

Offerors must identify whether a proposed Information and Communication Technology (ICT) product or service is compliant with the Section 508 accessibility standards at 36 CFR 1194. The offer must also identify where full details of compliance can be found (e.g., vendor’s website or other exact location.) For more information on Section 508 standards visit https://www.section508.gov/.

(6) **Full-Product and Broad-Service Offerings**

The offeror must provide a full and broad array of proposed products/services. An offer will not be accepted with limited product/service offerings unless it represents a total solution for the proposed SINs.

(7) **Fair and Reasonable Pricing**

To determine fair and reasonable pricing, the GSA contracting officer may consider many factors, including pricing on competitor contracts, historical pricing, and currently available pricing in other venues. Offers that propose Most Favored Customer pricing but are not highly competitive will not be determined fair and reasonable and will not be accepted.

(i) The streamlined proposal instructions in SCP-FSS-001-S are common to all solicitations. Some Schedules and SINs have additional requirements specific to that particular Schedule or SIN. Please review the solicitation attachments “Read Me First” and/or “Critical Information” for specific Schedule or SIN requirements.

(j) All offerors must comply with the following:

(1) **Section I – Administrative/Contract Data**

(i.) The offeror must be registered with the System for Award Management (SAM) at http://www.sam.gov. The information provided must be current, accurate, and complete, and reflect the North American Industrial Classification System (NAICS) code(s) for this solicitation and the SINs proposed. The offeror's subcontracting plan must be approved by the contracting officer prior to award. Failure to submit a Small Business Subcontracting Plan when required will result in the rejection of your offer. (iv.) Unless otherwise requested, the offeror shall not submit brochures, newsletters, or other marketing materials.

(v.) An Agent Authorization Letter must be completed and submitted as part of the offer if a consultant or third-party agent assisted in the preparation of the offer, will be involved in any part of the negotiation of the offer, or will be involved in any post-award actions. The template for the Agent Authorization Letter can be found as an attachment to the solicitation. The Agent Authorization Letter has both pre- and post-award delegations. For any resultant contract, the contractor is responsible for initiating a modification to ensure all authorized negotiators and delegations are up-to-date (*e.g.*, removing an authorized negotiator that only has pre-award delegations).

(2) **Section II – Technical Proposal**

The two technical proposal factors are below. The offeror is required to address Quality Control. The submission of data in support of Past Performance is optional.

(i.) Quality Control: The offeror is to submit a single narrative for this factor, regardless of the number of products/services offered. This narrative cannot exceed two (2) pages and must address the following:

(A) A description of internal review procedures that facilitate high-quality standards,

(B) Identification of individuals responsible for ensuring quality control,

(C) Whether or not subcontractors are used and, if so, the quality control measures used to ensure acceptable subcontractor performance,

(D) How potential problem areas and solutions are handled,

(E) The procedures for ensuring quality performance when meeting urgent requirements,

(F) How quality control will be managed when completing multiple projects for multiple agencies simultaneously.

(ii.) Past Performance: The offeror is not required to address this factor, as past performance will be evaluated based on existing information available to the contracting

officer. The offeror may submit relevant past performance references if desired but is not required to. If submitting relevant past performance references please include point of contact information for each.

(3) **Section III - Price Proposal**

(i.) GSA's pricing goal is to obtain equal to or better than the offeror's Most Favored Customer (MFC) pricing under the same or similar terms and conditions. GSA seeks to obtain the offeror's best price based on its evaluation of discounts, terms, conditions, and concessions offered to commercial customers. However, offers that propose Most Favored Customer pricing but are not highly competitive will not be determined fair and reasonable and will not be accepted. The U.S. Government Accountability Office has specifically recommended that "the price analysis GSA does to establish the Government's MAS negotiation objective should start with the best discount given to any of the vendor's customers."

(ii.) Submit proposed pricing using the attached Price Proposal Template. The Price Proposal Template MUST be submitted in Microsoft Office Excel format. The proposed pricing structure must be consistent with the offeror's commercial practices. Pricing must be clearly identified as based either on a "Commercial Price List" or a "Commercial Market Price," as defined in FAR 2.101 (see "Catalog Price" and "Market Prices" under the definition of "Commercial Item").

(A) If the MFC is a Federal agency, but sales exist to commercial customers, identify which, if any, of the commercial customers receive the contractor's best price.

(B) Proposed prices must include the 0.75% Industrial Funding Fee (IFF) (see contract clause 552.238-74 *Industrial Funding Fee and Sales Reporting*). This fee will be included in the awarded prices and reflected in the total amount charged to ordering activities.

(iii.) Provide supporting documentation for EACH proposed product/service price. Supporting pricing documentation may consist of published and publicly available commercial catalogs/price lists, copies of invoices, contracts, quote sheets, *etc*., and must be submitted with the offer. There must be a clear and relevant relationship between the supporting document and the proposed price it is meant to substantiate. Each supporting document must be clearly labeled with the name of the corresponding proposed product/service.

(iv.) The offeror must submit a detailed price narrative containing sufficient information for each of the products/services offered to enable the contracting officer to determine that offered prices are fair and reasonable. For example, if a price offered to GSA is not equal to or better than the price offered to the offeror's designated Most Favored Customer, the narrative must explain the rationale for proposing such a price in a manner sufficient to enable the contracting officer to determine that the rate is fair and reasonable. Any deviation from the offeror's commercial sales practices must be explained, including the specific circumstances and frequency of the deviations.

The offeror must also propose a mechanism for future price adjustments, as detailed below:

(A) If pricing proposed in the Price Proposal Template is based on a commercial price list, submit a copy of the company's current, dated price list, catalog, or standard rate sheet (note that this must be an existing, standalone document, and not prepared for purposes of this solicitation). Future price adjustments for pricing based on a commercial price list are subject to clause 552.216-70 *Economic Price Adjustment – Multiple Award Schedule Contracts*.

OR

(B) If pricing proposed in the Price Proposal Template is based on commercial

market prices, future price adjustments are subject to clause I-FSS-969 *Economic Price Adjustment – FSS Multiple Award Schedule*. The offeror must either propose a fixed annual escalation rate or identify a relevant market indicator (e.g., the Bureau of Labor Statistics Employment Cost Index).

(v.) Travel will be handled in accordance with clause C-FSS-370 *Contractor Tasks/Special Requirements*. Costs for transportation, lodging, meals and incidental expenses are allowable subject to the limitations contained in the Federal Travel Regulations and/or Joint Travel Regulations. These costs should not be included in proposed prices, as they are to be coordinated at the order level.

(vi.) Complete the Commercial Sales Practices Format (CSP-1) in eOffer in accordance with the instructions provided. Provide a rationale for the given estimate of GSA contract annual sales.

(k) Raising the Bar

In an effort to raise standards under the FSS program, the following requirements have been highlighted in all solicitations and are relevant to this Schedule, as applicable:

(1) **AbilityOne Program Products**

The AbilityOne Program is a Federal procurement program that generates jobs for individuals who are blind or have another significant disability. In order to distribute AbilityOne products, a vendor must be an authorized AbilityOne Program distributor as designated by the U.S. AbilityOne Commission.

Certain commercial products are considered “essentially the same” (ETS) as AbilityOne products. Because AbilityOne products are mandatory purchases for Federal customers, an offeror that is not an authorized AbilityOne distributor is required to remove any ETS items from its FSS proposal. Offerors can search for products on the procurement list at https://www.abilityone.gov/procurement_list/.

or more information on the AbilityOne Program, ETS products, and becoming an authorized AbilityOne distributor, please visit www.abilityone.gov/, or contact Mr. Mike Jurkowski at mjurkowski@abilityone.gov/ 703-603-2117.

(2) **Manufacturer Part Number and Universal Product Code Data**

Manufacturer Part Number (MPN) data must be submitted for all products. The offeror must ensure that the MPN for each proposed product reflects the actual number assigned. Universal Product Code Type A (UPC-A) data must also be submitted for all products for which this information is commercially available. If MPN (and UPC-A data, if commercially available) is submitted incorrectly or not submitted, the associated product may not be awarded.

(3) **GSA Advantage Purchase Order (PO) Portal**

The offeror must use EDI, cXML or the GSA Advantage Purchase Order (PO) Portal to provide order acknowledgment information that enables ordering agencies to track the location of an order at any time, from the moment the order is shipped, to the point of delivery and acceptance.

The GSA Advantage Purchase Order (PO) Portal, which is accessible at https://www.poportal.gsa.gov/poportal/welcome.do gives GSA schedule contractors quick and easy access to purchase orders placed by federal agencies using GSA Advantage or eBuy. The PO Portal allows contractors to view, print and/or download orders and to send order acknowledgment/status directly to ordering agencies.

For more information on the PO portal review the PO Portal helpguide at: https://www.gsaadvantage.gov/images/products/elib/pdf_files/pohp.pdf.

(4) **Frustrated Freight** (applicable only to overseas delivery)

The offeror must demonstrate understanding of orders bound for an international end-point delivery by providing a sample electronic version of a label appropriately marked in accordance with the FED-STD-123 and MIL-STD-129 edition in effect as of the date of solicitation issuance. An offer for OCONUS delivery will not be accepted if the offer does not demonstrate a proper tracking system and provide a sample packaging label for international delivery.

(5) **Section 508 Standards**

Section 508 of the Rehabilitation Act, as amended by the Workforce Investment Act of 1998 (P.L. 105-220) requires that when Federal agencies develop, procure, maintain, or use information and communication technology (ICT), it shall be accessible to people with disabilities. Federal employees and members of the public who have disabilities must have access to, and use of, information and data that is comparable to people without disabilities.

Offerors must identify whether a proposed Information and Communication Technology (ICT) product or service is compliant with the Section 508 accessibility standards at 36 CFR 1194. The offer must also identify where full details of compliance can be found (e.g., vendor's website or other exact location.) For more information on Section 508 standards visit https://www.section508.gov/.

(6) **Full-Product and Broad-Service Offerings**

The offeror must provide a full and broad array of proposed products/services. Offers will not be accepted with limited product/service offerings unless it represents a total solution for the proposed SINs.

(7) **Fair and Reasonable Pricing**

To determine fair and reasonable pricing, the GSA contracting officer may consider many factors, including pricing on competitor contracts, historical pricing, and currently available pricing in other venues. Offers that propose Most Favored Customer pricing but are not highly competitive will not be determined fair and reasonable and will not be accepted.

Begin Regulation

SCP-FSS-003 SPECIFIC PROPOSAL INSTRUCTIONS FOR PRODUCTS (JUN 2016)

(a) Read the entire solicitation document prior to preparation of an offer.

(b) The proposal instructions in SCP-FSS-003 are common to all solicitations that include products (except Schedule 70). Some Schedules and SINs have additional requirements specific to that particular Schedule or SIN. Please review the solicitation attachments "Read Me First" and "Critical Information" for additional information, requirements, and terms and conditions specific to a particular Schedule or SIN.

(c) Offerors proposing products must also comply with the following:

(1) **Section I - Administrative/Contract Data**

(i) The offeror must complete and upload to eOffer the Summary of Offer document.

(ii) All proposed products must comply with the Trade Agreements Act (TAA). It is the responsibility of the offeror to determine TAA compliance. When an item consists of components from various countries and the components are assembled in an additional country, the test to determine country of origin is "substantial transformation" (reference FAR 25.001(c)(2)). Offerors can go to The Office of Regulations and Rulings within U.S. Customs and Border Protection (CBP), which is the Federal agency responsible for making substantial transformation determinations, reference 19 CFR 177.23. CBP's determinations or opinions are based upon tariff laws. The offeror may also request an

opinion from a third-party expert or make the determination itself. The Internet address for CBP is: http://www.cbp.gov/. The offeror should keep this requirement in mind when completing the TAA certification section of its SAM registration. When evaluating offers, the contracting officer will rely solely on the representations and certifications of the offeror and will not make substantial transformation determinations.

(iii) If the offeror is not the manufacturer of the product(s) being proposed, an acceptable Letter of Commitment/Supply must be uploaded to eOffer. See clause I-FSS-644 *Dealers and Suppliers* in the Basic Solicitation and the letter requirements. Failure to provide an acceptable Letter of Commitment/Supply may result in rejection of the offer. See Letter of Supply Template for required language.

(2) **Section II - Technical Proposal** – No additional requirements.

(3) **Section III - Price Proposal** – No additional requirements.

552.219-71 NOTICE TO OFFERORS OF SUBCONTRACTING PLAN REQUIREMENTS (JAN 2016)

The General Services Administration (GSA) is committed to assuring that maximum practicable opportunity is provided to small, HUBZone small, small disadvantaged, and women-owned small business concerns to participate in the performance of this contract consistent with its efficient performance. GSA expects any subcontracting plan submitted pursuant to FAR 52.219-9, Small Business Subcontracting Plan, to reflect this commitment. Consequently, an offeror, other than a small business concern, before being awarded a contract exceeding $700,000 ($1,500,000 for construction), must demonstrate that its subcontracting plan represents a creative and innovative program for involving small, HUBZone small, small disadvantaged, and women-owned, veteran-owned, and service-disabled veteran owned small business concerns as subcontractors in the performance of this contract.

617 11 --- Shipping, Cargo, Freight, and Storage Containers; ISO and Non ISO Containers; Container Systems; Metal Drums; Maintenance, Repair and Modification of Container Solutions

This SIN excludes prefabrication building structures however includes a wide and diverse group of Storage Container Solutions:

-Acquisition of International Standards Organization (ISO) and non- ISO containers including flat racks (platforms), open-top, dry freight, insulated, collapsible, inflatable, refrigerated, and tank containers; and metal drum solutions.

This SIN 617 11 scope includes, but is not limited to a diverse category of containers:

Several basic types of International Organization for Standardization (ISO) containers including flat racks (platforms), open-top, dry freight, insulated, refrigerated, and tank containers. Flat racks and platforms are ISO containers that are used to transport heavy machinery. They do not have side walls, but may have end bulkheads and are often collapsible. ISO or intermodal containers are used for the intermodal transport of freight. They are manufactured according to specifications from the International Standards Organization (ISO) and are suitable for multiple transportation methods such as truck, rail, or ship. These regulations define a shipping container size, strength, and durability requirements. ISO

requirements guarantee that the container can withstand extreme environments endured during transport and have the structural integrity needed to be lifted by cranes or other heavy equipment during mobility or transport.

Height
Standard ISO containers measure 8 ft. 6 in., but they are available in several discrete heights measuring from 4 ft. to 9 ft. 6 in. Containers that measure 9 ft. 6 in. tall are called extended height or high cube containers while 4 ft. and 4 ft. 6 in. containers may be referenced as half height containers.

Width
The majority of all ISO containers measure 8 ft. or 2,438 mm wide. ISO Containers that exceed this dimension are grouped into two other size ranges. Alpha characters C, D, E, and F identify containers that are greater than 2,438 mm, but less than 2,500 mm. Containers that exceed 2,500 mm are referenced by L, M, N, and P.

Length
The most common lengths are 20 and 40 ft. Other lengths include 24, 28, 44, 45, 46, 53, and 56 ft.

International Organization for Standardization (ISO Certification: Vendors must self-certify that any containers identified and sold as ISO containers under this Schedule meet ISO standards/specifications.

Naming Convention: The Commercial and Military nomenclature may be referred to as BI-CONS, TRICONS and QUADCONS. Container names are based on TWENTY FOOT EQUIVALENT UNITS (TEU). One BICON takes 2 units to create a TEU; a TRICON takes 3 to create a TEU and a QUADCON takes 4 units a TEU.

After Receipt of Order (ARO): Due to the nature of manufacturing and assembly, the 30 day ARO period stated in the solicitation should be negotiated at order level. 180 days ARO is considered the commercial standard and reasonable for container solutions. The Government will accept accelerated delivery at no additional cost.

-Maintenance, repair and modification of new and existing containers including but not limited to Racks, Cages, Shelving, HVAC, Electricity, Refrigeration, Configuration Kits, access doors, windows, locking mechanisms, bulletproofing, security systems, and ventilation features. Kits/ supplies/ tools (products) for the modification/ repair/ customization of freight/ cargo containers may be purchased under this SIN.

Maintenance, Repair and Modifications are those: (1) solely associated with the repair, alteration, delivery or installation of container products or services, and which are (2) routine and non-complex in nature, such as routine painting or resurfacing or replacement of floors or panels, basic electrical or plumbing work, removal/relocation of non-load bearing walls, doors or window access, ventilation, installation of security or tracking devices, minor alterations to install storage systems, conveyors or conveyor systems, and similar noncomplex services.

Special Notice to Ordering Agencies: Modification and alterations of containers are not intended for human occupancy (i.e. housing). Please refer to MAS Schedule 56.

-Container and related services, not elsewhere classified (NEC)

Government agencies will solicit for container ancillary products and services including but

not limited to recertification, restenciling, decals, restrapping and/or acquisitions not elsewhere classified under container management such as Container Safety Certification (CSC) or Approved Continuous Examination Program (ACEP) requirements, tracking devices and ancillary shipment services.

617 13 --- Unique Identification (UID) / Radio Frequency Identification (RFID

For a variety of applications including supply chain management, logistics, and anti-counterfeiting, to improve inventory management and reduce operating costs. Unique Identification (UID) is a system of distinguishing one object from another. UID of items requires that qualifying items have a data matrix inscribed either directly on the item or on a permanent machine-readable label affixed to the item. UID is a mandatory Department of Defense (DoD) requirement for all acquisitions beginning January 1, 2004. It is also mandatory that all legacy items and all Government Furnished Property (GFP) be marked by January 1, 2006. Radio Frequency Identification (RFID) is a method of remotely storing and retrieving data using devices called RFID tags/transponders. An RFID tag is a small object integrated with a silicon chip, such as an adhesive sticker, that can be attached to or incorporated into a product. RFID tags contain antennas to enable them to receive and respond to radio-frequency queries from an RFID transceiver. RFID allows for individual

items to have a unique identifier and can identify many items at once. RFID enables consumer packaged goods companies, retailers and other industries to improve their operating efficiency throughout their supply chains.

Commercial and Government Entity (CAGE) code means —

(1) An identifier assigned to entities located in the United States or its outlying areas by the Defense Logistics Agency (DLA) Commercial and Government Entity (CAGE) Branch to identify a commercial or government entity; or

(5) All order-level materials shall be placed under the Order-Level Materials SIN.

(6) Prior to the placement of an order that includes order-level materials, the Ordering Activity shall follow procedures in FAR 8.404(h).

(i) The contractor proposing order-level materials as part of a solution shall obtain a minimum of three quotes for each order-level material above the simplified acquisition threshold.

(A) One of these three quotes may include materials furnished by the contractor under FAR 52.212-4 Alt I (i)(1)(ii)(A).

(B) If the contractor cannot obtain three quotes, the contractor shall maintain its documentation of why three quotes could not be obtained to support their determination.

(C) A contractor with an approved purchasing system per FAR 44.3 shall instead follow its purchasing system requirement and is exempt from the requirements in 552.238-82(d)(7)(i)(A)-(B).

(iii) If indirect costs are approved per [FAR 52.212-4(i)(1)(ii)(D)(2) Alternate I), the Ordering Activity Contracting Officer must make a determination that all indirect costs approved for payment are fair and reasonable. Supporting data shall be submitted in a form acceptable to the Ordering Activity Contracting Officer.

CI-FSS-151-S ADDITIONAL EVALUATION FACTORS FOR AWARD TO SUCCESSFUL FSS PROGRAM CONTRACTORS (OCT 2015)

(a) The Government will consider award to a responsible offeror, whose offer conforms to all solicitation requirements, is determined technically acceptable, has acceptable past performance, and whose prices are determined fair and reasonable.

(1) **Section I - Administrative/Contract Data:**

Section I - Administrative/Contract Data will be evaluated for successful completion of all requirements outlined in provision SCP-FSS-001-S *Instructions Applicable to Successful FSS Program Contractors* and, as applicable, provisions SCP-FSS-002 *Specific Proposal Instructions for Services*, SCP-FSS-003 *Specific Proposal Instructions for Products*, SCP-FSS-004 *Specific Proposal Instructions for Schedule* 70, SCP-FSS-005 *Special Proposal Instructions for Products for Schedule 751*, SCP-FSS-006 *Special Proposal Instructions for Products and Services for Schedule 23V*, and SCP-FSS-008 *Specific Proposal Instructions for Schedule 00CORP*.

(2) **Section II - Technical Proposal:**

(i.) Section II - Technical Proposal will be reviewed, evaluated and rated acceptable or unacceptable based on the two technical evaluation factors described in provision SCP-FSS-001-S and, as applicable, provisions SCP-FSS-002, 003, 004, 005, 006, and 008 of the solicitation document. Award will be made on a SIN-by-SIN basis. A rating of "unacceptable" under any evaluation factor will result in an "unacceptable" rating overall for that SIN. Offers determined technically unacceptable for all proposed SINs will be rejected.

(ii.) Quality Control: Failure to provide the required information as described in Quality Control under provision SCP-FSS-001-S may result in an "unacceptable" rating for the Technical Proposal.

(iii.) Past Performance: The contracting officer will use the results of a search of known past performance information regarding the existing FSS contract, including but not limited to information in PPIRS along with any relevant past performance information provided by the offeror, to determine the past performance rating of the offeror. The Government reserves the right to consider any other pertinent information that comes to the attention of the Government regarding the offeror's past performance. Those offerors demonstrating a pattern of satisfactory performance will receive an acceptable rating.

(iv.) Technical proposals that are unrealistic in terms of technical commitment, lack technical competence, or are indicative of failure to comprehend the complexities and risks of solicitation requirements will be rejected.

(3) **Section III - Price Proposal:**

(i.) Section III - Price Proposal will be evaluated for successful completion of all requirements outlined in provision SCP-FSS-001-S and, as applicable, provisions SCP-FSS-002, 003, 004, 005, 006, and 008 of the solicitation document. In order for the Section III - Pricing Proposal to be rated acceptable, the contracting officer must determine that the proposed pricing is fair, reasonable, and supportable, based on the submission of sufficient pricing information as outlined in provision SCP-FSS-001-S and, as applicable, provisions SCP-FSS-002, 003, 004, 005, 006, and 008.

(ii.) The proposed pricing must be advantageous to the Government. If a price offered to

GSA is not equal to or better than the price offered to the offeror's designated Most Favored Customer, the offeror must explain the rationale for proposing such a price in a manner sufficient to enable the contracting officer to determine that the rate is fair and reasonable. If the rates offered are not “equal to or lower than” the MFC, an acceptable justification must be provided.

(b) The Government reserves the right to award or reject without discussions. Therefore, the offeror's initial proposal should contain the best terms from a price and technical standpoint.

(ii.) The proposed pricing must be advantageous to the Government.

(b) The Government reserves the right to award or reject without discussions. Therefore, the offeror's initial proposal should contain the best terms from a price and technical standpoint.

Such costs will, in all cases, be based upon the lowest regularly established rates on file with the Interstate Commerce Commission, the U.S. Maritime Commission (if shipped by water), or any State regulatory body, or those published by the U.S. Postal Service; and must be supported by paid freight or express receipt or by a statement of parcel post charges including weight of shipment.

(a) Offerors are requested to insert, in the spaces provided below or by attachment hereto, a separate charge for "Delivery Within Consignee's Premises" applicable to each shipping container to be shipped. (Articles which are comparable in size and weight, and for which the same charge is applicable, should be grouped under an appropriate item description.) These additional charges will be accepted as part of the award, if considered reasonable, and shall be included in the Contractor's published catalog and/or pricelist.

(b) Ordering activities are not obligated to issue orders on the basis of "Delivery Within Consignee's Premises," and Contractors may refuse delivery on that basis provided such refusal is communicated in writing to the ordering activity issuing such orders within 5 days of the receipt of such order by the Contractor and provided further, that delivery is made in accordance with the other delivery requirements of the contract. Failure of the Contractor to submit this notification within the time specified shall constitute acceptance to furnish "Delivery Within Consignee's Premises" at the additional charge awarded. When an ordering activity issues an order on the basis of "Delivery Within Consignee's Premises" at the accepted additional charge awarded and the Contractor accepts such orders on that basis, the Contractor will be obligated to provide delivery "F.o.b. Destination, Within Consignee's Premises" in accordance with FAR 52.247-35, which is then incorporated by reference, with the exception that an additional charge as provided herein is allowed for such services. I-FSS-599 ELECTRONIC COMMERCE—FACNET (APRIL 2018)

(a) General Background.

The Federal Acquisition Streamlining Act (FASA) of 1994 establishes the Federal Acquisition Computer Network (FACNET) requiring the Government to evolve its acquisition process from one driven by paperwork into an expedited process based on electronic commerce/electronic data interchange (EC/EDI). EC/EDI means more than merely automating manual processes and eliminating paper transactions. It can and will help to move business processes (e.g., procurement, finance, logistics, etc.) into a fully electronic environment and fundamentally change the way organizations operate.

(b) Trading Partners and Value-Added Networks (VAN’s).

Within the FACNET architecture, electronic documents (e.g., orders, invoices, etc.) are carried between the Federal Government's procuring office and contractors (now known as "trading partners"). These transactions are carried by commercial telecommunications companies called Value-Added Networks (VAN’s) and there are some instances where direct connections may be offered as an alternative.

EDI can be done using commercially available hardware, software, and telecommunications. The selection of a VAN is a business decision contractors must make. There are many different VAN’s which provide a variety of electronic services and different pricing strategies. If your VAN only provides communications services, you may also need a software translation package.

(c) Registration Instructions.

DOD will require Contractors to register as trading partners to do business with the Government. This policy can be reviewed via the INTERNET at http://www.defenselink.mil/releases/1999/b03011999_bt079-99.html.

A central repository of all trading partners, called the System of Award Management (SAM), has been developed and is available at SAM.gov. All Government procuring offices and other interested parties will have access to this central repository. The database is structured to identify the types of data elements which are public information and those which are confidential and not releasable.

To register, contractors must provide their Dun and Bradstreet (DUNS) number. The DUNS number is available by calling 1(800)333-0505. It is provided and maintained free of charge and only takes a few minutes to obtain. Contractors will need to provide their Tax Identification Number (TIN). The TIN is assigned by the Internal Revenue Service by calling 1(800)829-1040. Contractors will also be required to provide information about company bank or financial institution for electronic funds transfer (EFT).

(d) Implementation Conventions.

All EDI transactions must comply with the Federal Implementation Conventions (IC's). Many VAN's and software providers have already built the IC requirements into their products. If you need to see the IC's, they are available on a registry maintained by the National Institute of Standards and Technology (NIST). It is accessible via the INTERNET at http://www.nist.gov. IC's are available for common business documents such as Purchase Order, Price Sales Catalog, Invoice, Request for Quotes, etc.

(e) Additional Information.

Several resources are available to vendors to assist in implementing EC/EDI:

(1) Electronic Commerce Resource Centers (ECRC's) are a network of U.S. Government-sponsored centers that provide EC/EDI training and support to the contractor community. They are found in over a dozen locations around the country.

(2) Procurement Technical Assistance Centers (PTAC's) and Small Business Development Centers (SBDC's) provide management assistance to small business owners. Each state has several locations.

(3) Most major US cities have an EDI user group of companies who meet periodically to share information on EDI-related subjects.

(f) GSA *Advantage!* ®

(1) GSA *Advantage!* ® will use EC/ECI to receive catalogs, and text messages; and to send purchase orders, application advice, and functional acknowledgments and other transactions as needed. GSA *Advantage!* ® enables customers to:

(i) Perform database searches across all contracts by manufacturer; manufacturer's model/part number; vendor; and generic product categories.

(ii) Generate their own EDI delivery orders to contractors, generate EDI delivery orders from the Federal Acquisition Services (FAS) to contractors, or download files to create their own delivery orders.

(iii) Use the Federal IMPAC VISA.

(2) GSA *Advantage!*® may be accessed via the GSA Home Page. The INTERNET address is: https://gsaadvantage.gsa.gov.

Price adjustments include price increases and price decreases. Adjustments will be considered as follows:

(a) Contractors shall submit price decreases anytime during the contract period in which they occur. Price decreases will be handled in accordance with the provisions of the Price Reduction Clause.

(b) There are two types of economic price adjustments (EPAs) possible under the Multiple Award Schedules (MAS) program for contracts not based on commercial catalogs or price lists as described below. Price adjustments may be effective on or after the first 12 months of the contract period on the following basis:

(1) Adjustments based on escalation rates negotiated prior to contract award. Normally, when escalation rates are negotiated, they result in a fixed price for the term of the contract. No separate contract modification will be provided when increases are based on negotiated escalation rates. Price increases will be effective on the 12-month anniversary date of the contract effective date, subject to paragraph (f), below.

(2) Adjustments based on an agreed-upon market indicator prior to award. The market indicator, as used in this clause, means the originally released public index, public survey or other public, based market indicator. The market indicator shall be the originally released index, survey or market indicator, not seasonally adjusted, published by the [to be negotiated], and made available at [to be identified]. Any price adjustment shall be based on the percentage change in the designated (i.e. indicator identification and date) market indicator from the initial award to the latest available as of the anniversary date of the contract effective date, subject to paragraph (e), below. If the market indicator is discontinued or deemed no longer available or reliable by the Government, the Government and the Contractor will mutually agree to a substitute. The contract modification reflecting the price adjustment will be effective upon approval by the Contracting Officer, subject to paragraph (g), below. The adjusted prices shall apply to orders issued to the Contractor on or after the effective date of the contract modification.

(c) Nothwithstanding the two economic price adjustments discussed above, the Government recognizes

the potential impact of unforeseeable major changes in market conditions. For those cases where such changes do occur, the contracting officer will review requests to make adjustments, subject to the Government's examination of industry-wide market conditions and the conditions in paragraph (d) and (e), below. If adjustments are accepted, the contract will be modified accordingly. The determination of whether or not extra-ordinary circumstances exist rests with the contracting officer. The determination of an appropriate mechanism of adjustment will be subject to negotiations.

(d) Conditions of Price change requests under paragraphs b(2) and c above.:

(1) No more than three increases will be considered during each succeeding 12-month period of the contract. (For succeeding contract periods of less than 12 months, up to three increases will be considered subject to the other conditions of subparagraph (b)).

(2) Increases are requested before the last 60 days of the contract period, including options.

(3) At least 30 days elapse between requested increases.

(4) In any contract period during which price increases will be considered, the aggregate of the increases during any 12-month period shall not exceed ten percent (10%) of the contract unit price in effect at the end of the preceding 12-month period. The Government reserves the right to raise the ceiling when market conditions during the contract period support such a change.

(e) The following material shall be submitted with request for a price increase under paragraphs b(2) and c above:

(1) A copy of the index, survey or pricing indicator showing the price increase and the effective date.

(2) Commercial Sales Practice format, per contract clause 52.215-21 Alternate IV, demonstrating the relationship of the Contractor's commercial pricing practice to the adjusted pricing proposed or a certification that no change has occurred in the data since completion of the initial negotiation or a subsequent submission.

(3) Any other documentation requested by the Contracting Officer to support the reasonableness of the price increase.

(f) The Government reserves the right to exercise one of the following options:

(1) Accept the Contractor's price increases as requested when all conditions of (b), (c), (d), and (e) of this clause are satisfied;

(2) Negotiate more favorable prices when the total increase requested is not supported; or,

(3) Decline the price increase when the request is not supported. The Contractor may remove the item(s) from contract involved pursuant to the Cancellation Clause of this contract.

(g) Effective Date of Increases: No price increase shall be effective until the Government receives the electronic file updates pursuant to GSAR 552.238-81, Modifications (Federal Supply Schedule).

(h) All MAS contracts remain subject to contract clauses GSAR 552.238-75, "Price Reductions"; and 552.215-72, "Price Adjustment -- Failure to Provide Accurate Information." In the event the application of an economic price adjustment results in a price less favorable to the Government than the price relationship established during negotiation between the MAS price and the price to the designated customer, the Government will maintain the price relationship to the designated customer.

52.204-16 COMMERCIAL AND GOVERNMENT ENTITY CODE REPORTING (JUL 2016)

(a) *Definition.* As used in this provision —

Commercial and Government Entity (CAGE) code means —

(1) An identifier assigned to entities located in the United States or its outlying areas by the Defense Logistics Agency (DLA) Commercial and Government Entity (CAGE) Branch to identify a commercial or government entity; or

(2) An identifier assigned by a member of the North Atlantic Treaty Organization (NATO) or by the NATO Support and Procurement Agency (NSPA) to entities located outside the United States and its outlying areas that the DLA Commercial and Government Entity (CAGE) Branch records and maintains in the CAGE master file. This type of code is known as a NATO CAGE (NCAGE) code.

(b) The Offeror shall enter its CAGE code in its offer with its name and address or otherwise include it prominently in its proposal. The CAGE code entered must be for that name and address. Enter “CAGE” before the number. The CAGE code is required prior to award.

(c) CAGE codes may be obtained via —

(1) Registration in the System for Award Management (SAM) at www.sam.gov. If the Offeror is located in the United States or its outlying areas and does not already have a CAGE code assigned, the DLA Commercial and Government Entity (CAGE) Branch will assign a CAGE code as a part of the SAM registration process. SAM registrants located outside the United States and its outlying areas shall obtain a NCAGE code prior to registration in SAM (see paragraph (c)(3) of this provision).

(2) *The DLA Contractor and Government Entity (CAGE) Branch*. If registration in SAM is not required for the subject procurement, and the offeror does not otherwise register in SAM, an offeror located in the United States or its outlying areas may request that a CAGE code be assigned by submitting a request at https://cage.dla.mil.

(3) *The appropriate country codification bureau*. Entities located outside the United States and its outlying areas may obtain an NCAGE code by contacting the Codification Bureau in the foreign entity’s country if that country is a member of NATO or a sponsored nation. 52.204-17 OWNERSHIP OR CONTROL OF OFFEROR (JUL 2016) 4.1804(a)

(a) *Definitions*. As used in this provision —

Commercial and Government Entity (CAGE) code means —

(1) An identifier assigned to entities located in the United States or its outlying areas by the Defense Logistics Agency (DLA) Commercial and Government Entity (CAGE) Branch to identify a commercial or government entity; or

(2) An identifier assigned by a member of the North Atlantic Treaty Organization (NATO) or by the NATO Support and Procurement Agency (NSPA) to entities located outside the United States and its outlying areas that the DLA Commercial and Government Entity (CAGE) Branch records and maintains in the CAGE master file. This type of code is known as a NATO CAGE (NCAGE) code.

Highest-level owner means the entity that owns or controls an immediate owner of the offeror, or that owns or controls one or more entities that control an immediate owner of the offeror. No entity owns or exercises control of the highest level owner.

Immediate owner means an entity, other than the offeror, that has direct control of the offeror. Indicators of control include, but are not limited to, one or more of the following: Ownership or interlocking management, identity of interests among family members, shared facilities and equipment, and the common use of employees.

(b) The Offeror represents that it _____ has or _____ does not have an immediate owner. If the Offeror has more than one immediate owner (such as a joint venture), then the Offeror shall respond to paragraph (c) and if applicable, paragraph (d) of this provision for each participant in the joint venture.

(c) If the Offeror indicates ‘‘has’’ in paragraph (b) of this provision, enter the following information:

Immediate owner CAGE code: _____

52.209-5 CERTIFICATION REGARDING RESPONSIBILITY MATTERS (OCT 2015)

(a) (1) The Offeror certifies, to the best of its knowledge and belief, that-

(i) The Offeror and/or any of its Principals-

(A) Are _____ are not ____ presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have ____ have not ____, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property (if offeror checks "have", the offeror shall also see 52.209-7, if included in this solicitation); and

(C) Are ____ are not ____ presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in subdivision (a)(1)(i)(B) of this provision; and

(D) Have ____ have not ____, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds $3,500 for which the liability remains unsatisfied.

(1) Federal taxes are considered delinquent if both of the following criteria apply:

(i) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(ii) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(2) *Examples.*

(i) The taxpayer has received a statutory notice of deficiency, under I.R.C. § 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. § 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax

because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. § 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(ii) The Offeror has ____ has not ____, within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal Agency.

(2) “Principal,” for the purposes of this certification, means an officer; director; owner; partner; or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

This certification concerns a matter within the jurisdiction of an agency of the United States and the making of a false, fictitious, or fraudulent certification may render the maker subject to prosecution under section 1001, title 18, United States Code.

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.

(d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealing.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

(i) In a criminal proceeding, a conviction.

(ii) In a civil proceeding, a finding of fault and liability that results in the payment of a monetary fine, penalty, reimbursement, restitution, or damages of $5,000 or more.

(iii) In an administrative proceeding, a finding of fault and liability that results in —

(A) The payment of a monetary fine or penalty of $5,000 or more; or

(B) The payment of a reimbursement, restitution, or damages in excess of $100,000.

(iv) In a criminal, civil, or administrative proceeding, a disposition of the matter by consent or compromise with an acknowledgment of fault by the Contractor if the proceeding could have led to any of the outcomes specified in paragraphs (c)(1)(i), (c)(1)(ii), or (c)(1)(iii) of this provision.

(2) If the offeror has been involved in the last five years in any of the occurrences listed in (c)(1) of this provision, whether the offeror has provided the requested information with regard to each occurrence.

52.222-52 EXEMPTION FROM APPLICATION OF THE SERVICE CONTRACT LABOR STANDARDS TO CONTRACTS FOR CERTAIN SERVICES--CERTIFICATION (MAY 2014)

(a) The offeror shall check the following certification:

CERTIFICATION

The offeror ____ does ____ does not certify that--

(1) The services under the contract are offered and sold regularly to non-Governmental customers, and are provided by the offeror (or subcontractor in the case of an exempt subcontract) to the general public in substantial quantities in the course of normal business operations;

(2) The contract services are furnished at prices that are, or are based on, established catalog or market prices. An "established catalog price" is a price included in a catalog, price list, schedule, or other form that is regularly maintained by the manufacturer or the offeror, is either published or otherwise available for inspection by customers, and states prices at which sales currently, or were last, made to a significant number of buyers constituting the general public. An "established market price" is a current price, established in the usual course of ordinary and usual trade between buyers and sellers free to bargain, which can be substantiated from sources independent of the manufacturer or offeror;

(3) Each service employee who will perform the services under the contract will spend only a small portion of his or her time (a monthly average of less than 20 percent of the available hours on an annualized basis, or less than 20 percent of available hours during the contract period if the contract period is less than a month) servicing the Government contract; and

(4) The offeror uses the same compensation (wage and fringe benefits) plan for all service employees performing work under the contract as the offeror uses for these employees and for equivalent employees servicing commercial customers.

(b) Certification by the offeror as to its compliance with respect to the contract also constitutes its certification as to compliance by its subcontractor if it subcontracts out the exempt services. If the offeror certifies to the conditions in paragraph (a) of this provision, and the Contracting Officer determines in accordance with FAR 22.1003-4(d)(3) that the Service Contract Labor Standards statute —

(1) Will not apply to this offeror, then the Service Contract Labor Standards clause in this solicitation will not be included in any resultant contract to this offeror; or

(2) Will apply to this offeror, then the clause at FAR 52.222-53, Exemption from Application of the Service Contract Labor Standards to Contracts for Certain Services—Requirements, in this solicitation will not be included in any resultant contract awarded to this offer, and the offeror may be provided an opportunity to submit a new offer on that basis.

(c) If the offeror does not certify to the conditions in paragraph (a) of this provision--

(1) The clause of this solicitation at 52.222-53, Exemption from Application of the Service

Contract Labor Standards to Contracts for Certain Services—Requirements, will not be included in any resultant contract to this offeror; and

(2) The offeror shall notify the Contracting Officer as soon as possible if the Contracting Officer did not attach a Service Contract Labor Standards wage determination to the solicitation.

By providing a selection of comparable supplies or services, ordering activities are afforded the opportunity to fulfill their requirements with the item(s) that constitute the best value and that meet their needs at the lowest overall cost.

(b) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. (h) *Certification Regarding Responsibility Matters (Executive Order 12689).* The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals —

(1) _____ Are, _____ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) _____ Have, _____ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) _____ Are, _____ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) _____ Have, _____ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds $3,500 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined*. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples*.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. § 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek

Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. § 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. § 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C.§ 362 (the Bankruptcy Code).
